Students, are you interested in learning more about coding, AI design, or website design? If so, we have an opportunity for you. On Tuesday, April 26, at 7:00 pm, we will host a workshop on Teams to cover these topics. Our host will be Vivian Li. Vivian is a software engineer at Microsoft and an MHS alum. She studied computer science at the University of Illinois at Urbana-Champaign where she worked in coding outreach programs. In addition, Vivian has invited two other professionals including one from Google and another that is getting ready to start at Amazon AWS. This one just happens to be her brother Teddy, another former Bomber. Be on the lookout in your email for the invite to the teams meeting. This is open to all MHS students.

Attention seniors: if you have been awarded a scholarship through your college, university, or trade school and plan to attend Honors Night please let Mrs. Hadsall know no later than Friday, April 29 so that we can be sure to recognize you.

On Thursday there will be a table set up outside the main doors where you can pick up a bag to take home and fill with non-perishable items.
